## 问题 (Question)

If there are multiple users in cluster and want to set high priority for one user(to submit his jobs first). How can i do this?

Thanks, Mohan

如果有多个用户在集群和想为一个用户组高优先级(提交他的工作第一)。 我能怎么做?

谢谢,

## 最佳答案 (Best Answer)

Normal user can't change job priority.

Only SGE admin can change that by following command

shell> qalter -p [priority valus] [job id]

普通用户无法改变的工作优先。

只有管理员可以改变,通过SGE以下命令

qalter -p [priority valus] [job id]">壳> qalter P [优先级值] [工作]
